CULVERT SPECIFICATIONS

Property owners may install culverts to improve access to their properties provided that the following specifications are followed:

1. Supply of a dimensioned sketch at time of application is required.
2. The cost of installation and maintenance is for the owner's account.
3. A minimum inside diameter of 15" is required (round or oval).
4. A minimum of 4" of compacted crushed limestone base and/or asphalt or cement is used to cover the culvert.
5. Any use of asphalt or cement is at owner's risk of repair/replacement should it interfere with City maintenance needs.
6. Property owners are responsible for keeping culverts functional in the routing of water flows away from street edges and surfaces.
